Dear Concern,

I have known that you are going to recruit a Software Engineer (Intern/Trainee) for your renowned company. I am a fresh graduate of Dept. of CSE, IIUC having current CGPA of 3.67.

Currently I am trying to adopt the power and beauty of Laravel and VueJS Framework and my projects are available in following link: https://github.com/Sarjis/laravel-vuejs-projects and I can mention I've more than six month of self-coding experience in **Laravel. Bootstrap, VueJS, CodeIgniter** with MySQL frameworks.
